1- Debe ir dashboard, luego de iniciar sesion.

The screenshot shows the website usatelk.com/es. The navigation menu is highlighted with a green box around the 'Dashboard' link, and a green arrow points down to it. The menu items are: Inicio, Funcionamiento, Precios, Streaming, Mas Servicios, Dashboard, Descargas, Contacto, and Acceso. Below the navigation menu, there is a support banner with the text 'Soporte y ventas, Llámenos: 1 - (267) 388-9571 México (52) 55 -4170 8734' and flags for Spain and the UK. Below the banner, there is a promotional text: 'Con Usatelk podrá recibir llamadas de números locales internacionales en más de 50 países y reenviar la llamada a su teléfono fijo, celular, Gtalk, su proveedor VoIP o su IP PBX. Sin gastos de instalación.' Below this, there is an advertisement for 'Mobiliario de oficina - Almacenes EZA' with the text 'De Todo Para Montar o Remodelar Su Oficina. Asesoramos A Nuestros Clientes facebook.com' and a 'REGISTRATE GRATIS' button. At the bottom left, there is a small text 'perando usatelk.com...'.

2- Ir a MY SERVICES

The screenshot shows a web browser at the URL usatelk.com/es/dashboard. The page features a navigation menu on the left with the following items: PBXWW PANEL, MY DETAILS, INVOICES, MY SERVICES (highlighted with a green arrow and box), CALL HISTORY, SMS HISTORY, MY PAYMENTS, and TICKETS. The main content area is titled 'Dashboard' and includes buttons for 'Invoices', 'Payments', and 'Tickets'. Below these is a 'PBXww dashboard' section with a 'PBXww Service' window. This window contains a 'Service Description' and a 'Launch PBXww' button. The description text reads: 'Advanced Call Forwarding (PBXww) is an extremely powerful and easy-to-use tool for managing and directing incoming phone calls, essentially operating as your own hosted telephony service. By using the PBXww control panel, you are able to easily receive calls from local numbers, forward calls to any phone number or VoIP destination, play back custom recorded messages to callers, direct calls using extension numbers, send calls to a voice-mail box, receive faxes and forward them to an email address and host conference calls. Advanced Call Forwarding is quickly and easily configured via a web interface, with drag-and-drop objects being connected together to control exactly how the call progresses. This platform is applicable for personal and business use.' A 'Atención al Cliente' chat widget is visible in the bottom right corner, featuring a customer service representative icon.

3- Debe ir a Details:
